5. (Unclassified - DFM) LIAISON In the absence of Elliot Maxwell, Senate Select Committee on Intelligence staff, I informed his secretary, Michal Shafer, that Maxwell should be in contact with DOD concerning a visit to their facilities in Los Angeles and San Francisco and we will arrange visits to our facilities. Ms. Shafer said she would pass the message to Maxwell.

6. (Secret - DFM) LIAISON Called Danny Childs, Senate Select Committee on Intelligence staff, concerning our discussion yesterday regarding Reserve release letters and the possibility of a letter from Chairman Daniel Inouye (D., Hawaii) stating Committee approval of this release and asking that procedures be set up to transmit future approvals. I told Childs that I thought the Agency would oppose establishing such procedures and asked if we could discuss this before the letter is sent. Childs then alerted Bill Miller, Staff Director, to expect a call.

7. (Confidential - GLC) FAA BRIEFING Accompanied the Director to a briefing of the Defense Subcommittee, House Appropriations Committee, on the 16 November 1976 Presidential finding. (See Memorandum for the Record.)

8. (Confidential - GLC) LIAISON In the company of Mr. Carpentier, met with Richard Sprague, Chief Counsel, House Select Committee on Assassinations, to provide him with comments on the Kessler article of 26 November 1976 and to discuss several related matters. (See Mr. Carpentier's Memorandum for the Record.)

9. (Confidential - PLC) LIAISON At the request of Ms. Jo Lockley, German Desk/DDO, for her response to a cable from the Munich Base, I called Dick Kimmel, Document Control Specialist for the Joint Atomic Energy Committee, to determine the distribution of a Committee publication of a statement by former Commissioner Dixie Lee Ray, Atomic Energy Commission, on 6 August 1974 on uranium enrichment. Kimmel said the publication was of an open hearing and was given standard distribution including the International Atomic Energy Agency in Vienna. Lockley was so advised and will cable the field.
